- Front-End Development - Scrimba (Completed)

EDUCATION

MASTER OF ARTS

KANPUR UNIVERSITY

2020 - 2022

PROFILE

I am an experienced Full-Stack Developer with a passion for creating intuitive, high-quality user experiences. I have a deep understanding of MERN stack , NextJs, GraphQL , tRPC , typeScript and other related technologies.

PROJECTS

E-BUS LOCATION SERVICE SOLUTION

Fullstack MERN App

- Developed Frontend using React , Material UI
- Integrated **Tomtom international map API** for map component
- Used **Context API** for state management
- Developed Backend using **NodeJs and Express,** used **MongoDB** as database
- **What App Does: Live Location** based application which fetches data from the bus conductor , status of the bus and in real-time sendsdata to the users.   This enables providing live location of e-buses to the users

FOOD ORDERING WEB APP

Fullstack MERN APP

- Developed Frontend using React , Bootstrap
- Used **Context API** for state management
- Backend is made using **NodeJs, Express** and **MongoDB**
- **What web-app does:** Food Ordering app which provides you number of recipes to try, user select dishes and orders them , order history is saved in server. Uses **JWT** for Authentication of user.
